

Our Campus

Friends Care Community provides a welcoming, vibrant, and homelike environment for all its residents. Our beautiful campus is situated on 23 acres of woods, in the picturesque village of Yellow Springs, Ohio. The campus includes a pre-school program for children, dogs, birds, fish, a greenhouse, playground, and a community garden. Paved walking trails, a pond, and furnished patios provide scenic respites for all. A wide range of activities onsite and off campus are offered to residents for all levels of ability and interests. Barber and Beauty salon services are available on campus. Come visit us and see that you're among Friends!

Our Mission

Friends Care Community meets the residential living needs of seniors and others by providing independent living, assisted care, skilled care and convalescent options in a vibrant, homelike environment. Our goals are the happiness and fulfillment of all residents and staff, by respecting the dignity and unique needs of each individual.

Our History

Our roots in the community began in the 1960s when Arthur Morgan felt Yellow Springs should have a nursing home. The Friends Health Care Association (FHCA) was established in 1977 as a not-for-profit organization to provide health care services and convalescent living arrangements for residents of the Yellow Springs community. The initial Board was appointed by the Yellow Springs Friends Meeting. The Board of Trustees of the Association currently consists of 11 members of the Yellow Springs community, six of whom are selected by the Friends Meeting of Yellow Springs. By 1999, the need for additional services became apparent and Friends Assisted Living Center opened with 20 rooms and suites. Friends Independent Living Cottages followed in 2002. These additional programs transformed FCC from a small nursing home to a continuing care retirement community.
